JANUARY 2019 NRL 22
OFFICIAL COURSE OF FIRE

Happy New Year from the NRL22 to you! We would like to welcome you to 2019 with another fun course of fire provided by my friend Erik Severson of Sage Range. We hope that you enjoyed 2018, which was our first full year of operation with NRL22. Take a moment to reflect on all of the things that you have learned, people you have helped and friends that you have made in this community. Now let’s double down on all of those things for a fantastic 2019!

Range requirements: NRL22 18/19 target package, the folding chair, the sawhorse, the 55 gallon drum, and 2” NRL22 targets and target stands for paper targets.

Shooter equipment: Rifle must be chambered in 22 LR. Rifle is encouraged to have a removable magazine. Scopes with adjustable windage, elevation and a reticle are recommended. Bipods and a rear bag approximately the same size as a volleyball or smaller are also recommended. A sling is a huge aide for positional stages and shooters would benefit greatly from a sling. Special note on equipment, this is a fantastic community. If you are short on equipment, let that be known. The good men and women in this community will fall all over themselves to help you out and lend you theirs.

Safety suggestions: Weed whacker plastic string works very well for Empty Chamber Indicators. Using ECI ensures a rifle is not loaded and especially useful for Ruger 10/22’s. The stages’ starting positions were deliberately set up for safety. Ensure RO’s are very close to new shooters and kids, especially in the positional and barricade stages in case the 180 rule is broken or a transition is made without the action open or safety engaged.

Paper stage suggestions: Have one of the NRL 22 paper targets present at stage briefing so that all shooters can see what it is before they get behind the rifle. Ensure the shooter number is written very large. Because the targets we provide have 2 targets on each one, I have been cutting the targets in half and spreading them out a bit. This seems to reduce crossfires, but they will happen. Only 2 or 3 shots count per target. If a shooter accidentally shoots another shooter’s target, it benefits the shooter who was shooting at the correct target. However, an RO with a spotting scope ensuring a shooter’s target is clean before they shoot will help minimize this. For scoring, the shot just needs to break the line to get the higher points. So if the 10 circle is just barely nipped, that shot is a 10.

Scoring submissions: Download the NRL22 Scores sheet from the downloads section on NRL22.org, fill out the results, and submit scores sheet to matches@nrl22.org, followed by payment for admin fee. Deadline for submissions is February 6th, 2019

Keep in mind that only NRL 22 members are eligible for prizes and while we have a 30 day grace period for membership, if the prizes are already distributed, it is the competitor’s loss. The live Facebook show for prizes will happen on February 13th, 2019
Here is the running list of Base class models that are under $350 MSRP. If you notice models that fit in this list that are missing, please let your match director know. If you have questions about base model, please ask your match director. They are the ones who make the determination.
