

# SEPTEMBER 2020 NRL22 OFFICIAL COURSE OF FIRE

September introduction:

Welcome to the September COF of the 2020/2021 season. With the 2019/2020 NRL22 National Championship held at Eagle Eye Shooting Complex all wrapped up we would like to thank Michael Millikan for putting on an absolute awesome match and bringing in some great food and entertainment, you sir set a new bar. We also want to thank our co-match sponsors Bergara and Bushnell for their awesome work and donations to the ROs and prize table. NRL22 is an absolute amazing shooting sport and a great opportunity for new and seasoned shooters to compete on a level playing field.

## **Equipment Update:**

“A plate and single bag combination, attached or not attached, is considered 1 piece of equipment. It must be used together throughout the stage and may not exceed 9"x11"x7" together. Any piece of equipment added to a plate/bag combination is considered a second piece of equipment and is not allowed”

Section 5 C. 1. is the only rule that may be changed during the course of the season. All rule questions should be directed at each club's Match Director. The 2020/2021 NRL22 rules can be found at [NRL22 Rules](#).

If you need clarification on the rule change regarding equipment, then click this link [Equipment Video](#)

Here is the link for the PractiScore template for this month's COF. This template has all the stages already built for you if you don't want to create them yourself. All you need to do is follow the instructions to the letter otherwise you risk your match results being overwritten. [PractiScore Template](#)

Now we'd like to introduce a seasoned shooter and MD, Josh Failes from Bomb City Precision out of Amarillo, Texas. Thank you Josh for your second COF submission.

Range requirements: This month's COF will require the 2020/2021 NRL22 standard target package, rooftop, 55-gallon barrel, 5-gallon bucket, 2-gallon bucket, sawhorse, tire, and stop watch that can time down to a tenth of a second.

Safety suggestions: Weed whacker plastic string works very well for Empty Chamber Indicators (ECI). Using ECI ensures a rifle is not loaded and especially useful for Ruger 10/22's. The stages' starting positions were deliberately set up for safety. Ensure RO's are very close to new shooters and kids, especially in the positional and barricade stages in case the 180 rule is broken or a transition is made without the action open or safety engaged.

Scoring submissions: Download the NRL22 Scores sheet from the downloads section on NRL22.org, fill out the results, and submit scores sheet to [matches@nrl22.org](mailto:matches@nrl22.org), followed by payment for admin fee. Deadline for submissions is **October 7th, 2020**. Keep in mind that only NRL22 members are eligible for prizes and while we have a 30-day grace period for membership, if the prizes are already distributed, it is the competitor's loss. The live Facebook show for prizes will happen on **October 14th, 2020**.

Here is the running list of likely Base class rifles and scopes MSRPs. If you notice models that are not on this list that are missing, please let your match director know. If you have questions about base class, please ask your match director.
